

MyDesktop

To use the MyDesktop integration, you must first contact MyDesktop to enable the feature. Once enabled, the REI Forms Live username and password must be entered for each user who requires access.

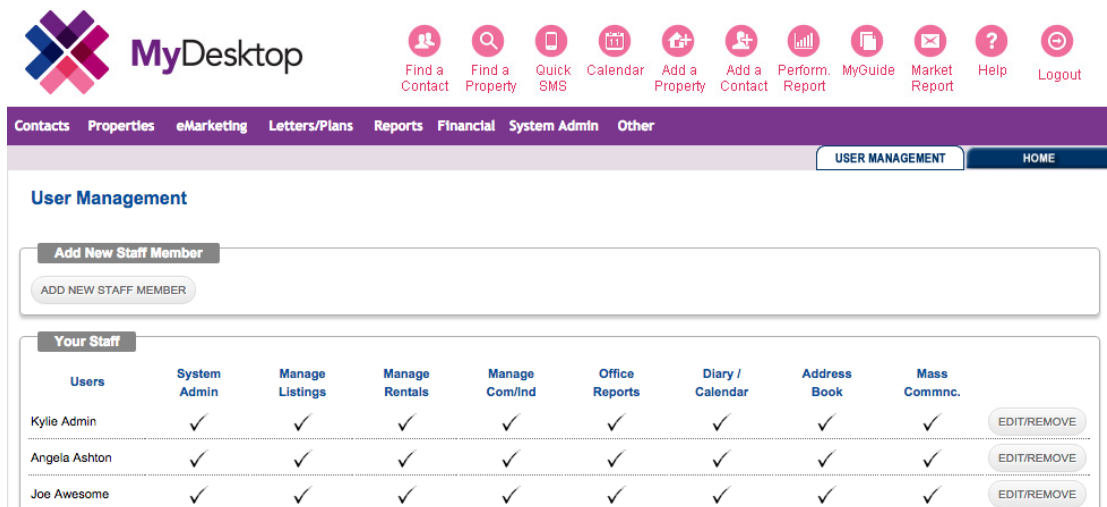

Configuration

To configure REI Forms Live for a user, please:

1. Click on "System Administrator" menu item on the left
2. Click "User Management" sub menu

3. Find the appropriate user and click "Edit/Remove"

4. Scroll down to the section titled "REIForms Account"
5. Enter your REI Forms Live username and password in this area

The screenshot shows a form titled "REI Forms Live" with two input fields: "Username:" and "Password:". Both fields are currently empty.

6. Scroll to the bottom of the page and click "Update Staff Member"

Using MyDesktop Integration

Once the above settings have been entered, you will be able to use the "REI Forms Live" button on the Property Listing pages. The button will be available at the top of the page within the button array.
